

DELAWARE COST OF CHILD CARE

Share Your Voice To
Inform Child Care
Subsidy Rates!

The Delaware Department of Education (DOE) in partnership with the Delaware Department of Health and Social Services (DHSS) are working with **Prenatal to Five Fiscal Strategies** to update the state's child care cost model. Together, we are seeking input on the cost of child care from early care and education providers and owners, including center-based and family child care settings.

We need to hear from you! Make your voice heard by participating in an **Input Session**. Participants in input sessions will be asked about their program services, quality characteristics, challenges to providing care, as well as hours worked and overtime. This is your opportunity to provide information on what it truly costs to provide quality child care — not just what families can afford.

Input Sessions will be held in English and Spanish (and other languages as requested).

CLICK HERE TO **REGISTER** FOR
Input Sessions

Each owner or program participating will receive a \$100 payment.
